Industrial field in Dali, Nicosia

€485,000 ^{+VAT}

Area

 9820 m²

Type

Field

Industrial field extending to about 9,820sq.m. is located in Dali, Nicosia. The property has a flat surface and access is via a registered road with a total road frontage of approximately 50m. The field falls within the light industrial planning zone B63.

The proposed road network crossing the industrial land in Dali is set to activate a comprehensive road system for the entire area, providing access from two sections of the property. We have already submitted an application to the authorities for a planning permit based on professional insights and the proposed network, with plans to divide the asset into two plots. For reference, you can view the submitted proposal in the photos section, which includes:
